The Collie Health Foundation (CHF) is a not-for-profit (501(c)(3)) organization dedicated to funding research projects in support of collies in particular, as well as dogs in general. Special consideration is given to breed-specific research. The CHF Grants Committee reserves the right to cancel an award should a proposed project be altered prior to issuance of grants money. At a minimum biannual progress reports are required. The CHF recognizes that some of the research projects it supports may necessitate the use of life animals and it requires that research animals be humanely treated.
